Take Advantage of the USDA's Renewable Energy Program to **CUT, FREEZE, then OBLITERATE** your electricity bill.

**Income Tax Credits
& 1 Year Accelerated
Depreciation & then USDA
Grants that are Guaranteed!**

Are you a small business owner or agricultural producer in a rural area? If so, the Rural Energy for America Program (REAP) is for you. Because of Solar Income Tax Credits and 1 year accelerated depreciation on business Solar systems, 3GuysSolar is writing applications for USDA grants for rural small businesses and agricultural producers with performance guarantees.

Grant funds must be used to implement solar energy systems. Adding the Solar energy income tax credits to the one year accelerated depreciation and a 50% USDA solar grant covers over 100% of system costs. Want to learn more? Sign up now for a free download or contact us if you have any questions!
